

APPENDIX A

C² SYMOLOGY: UNITS, EQUIPMENT AND INSTALLATIONS**A.1 GENERAL**

A.1.1 Scope. This appendix addresses tactical symbols that support units, equipment, and installations (UEI) in the C² domain. The tables in this appendix present the icons for space, air, ground, sea surface, sea subsurface, and special operations forces (SOF). This appendix is a mandatory part of the standard. The information contained herein is intended for compliance.

A.2 APPLICABLE DOCUMENTS

This section is not applicable to this appendix.

A.3 DEFINITIONS

The definitions in section 3 of this standard apply to this appendix.

A.4 GENERAL REQUIREMENTS

A.4.1 Organization. The purpose of warfighting symbology is to convey information about objects in the warfighter battlespace. This appendix contains the technical specifications, symbol coding scheme, symbology hierarchy, and the tactical symbols for the C² Symbology: Units, Equipment, and Installations symbology set.

A.5 DETAILED REQUIREMENTS

A.5.1 Technical specifications. Composition, construction, display, and transmission of tactical symbols are explained in the Detailed Requirements section of the standard.

A.5.2 Symbol Identification (ID) coding scheme. A symbol ID code is a 15-character alphanumeric identifier that provides the information necessary to display or transmit a tactical symbol between MIL-STD-2525 compliant systems.

A.5.2.1 Code positions. The positions of the symbol ID code are described below. Since many symbols do not have an entry in every code position, a dash (-) is used to fill each unused position. An asterisk (*) indicates positions that are user defined based on specific symbol circumstances, such as affiliation or echelon/mobility. Table A-I identifies the fields of information included in a symbol ID code and the position each occupies in the 15-character identifier. The values in each field are filled from left to right unless otherwise specified.

- a. Position 1, coding scheme, indicates which overall symbology set a symbol belongs to.
- b. Position 2, affiliation, indicates the symbol's affiliation.
- c. Position 3, battle dimension, indicates the symbol's battle dimension.

APPENDIX A

- d. Position 4, status, indicates the symbol's planned or present status.
- e. Positions 5 through 10, function ID, identifies a symbol's function. Each position indicates an increasing level of detail and specialization.
- f. Positions 11 and 12, symbol modifier indicator, identify indicators present on the symbol such as echelon, feint/dummy, installation, task force, headquarters staff, and equipment mobility. Table E-II contains the specific values used in this field.
- g. Positions 13 and 14, country code, identifies the country with which a symbol is associated. Country code identifiers are listed in the Federal Information Processing Standard (FIPS) Pub 10 series.
- h. Position 15, order of battle, provides additional information about the role of a symbol in the battlespace. For example, a bomber that has nuclear weapons on board may be designated as strategic force related.

TABLE A-I. Symbol ID code positions and categories.

CODING SCHEME (1) (POSITION 1)	AFFILIATION (1) (POSITION 2)	BATTLE DIMENSION (1) (POSITION 3)	STATUS (1) (POSITION 4)
S - WARFIGHTING G - TACTICAL GRAPHICS W - METOC I - INTELLIGENCE M - MAPPING (reserved - under development) O - Military Operations Other Than War (MOOTW)	P - PENDING U - UNKNOWN A - ASSUMED F - FRIEND N - NEUTRAL S - SUSPECT H - HOSTILE J - JOKER K - FAKER O - NONE SPECIFIED	P - SPACE A - AIR G - GROUND S - SEA SURFACE U - SEA SUBSURFACE F - SOF X - OTHER (No frame)	A - ANTICIPATED /PLANNED P - PRESENT
FUNCTION ID (6) (POSITION 5 - 10)	SYMBOL MODIFIER (2) (POSITION 11, 12)	COUNTRY CODE (2) (POSITION 13, 14)	ORDER OF BATTLE (1) (POSITION 15)

APPENDIX A

A.5.3 Symbology set. The following table provides a graphic representation of each approved tactical symbol in the C²: U, E, I symbology set. In the following tables, the Description column provides a concise description of each tactical symbol using operational terminology. The Hierarchy column presents the information hierarchy (taxonomy) number described earlier in the appendix. The Frame column indicates whether the icon is framed (F), unframed (U), or frame optional (FO). In table A-XIII, icons with an FO code are shown both framed and unframed. The Sym-ID portion of each Affiliation column (Unknown, Friend, Neutral, Hostile) presents the 15-character alphanumeric identifier necessary for automated systems to create each specific icon. As indicated previously, an asterisk (*) indicates a position that is defined by the user based on specific symbol circumstances, while a dash (-) indicates that no information is provided in the position.
